Subject: Perley's Marina - Point Source Identification Meeting

Thelma – thanks again to you and Mark for meeting with us at the Perley's Marina pertaining to Stormwater Multi-Sector General Permitting and Stormwater Pollution Prevention Planning. Great discussions and questions by all, let us know if you or Mark need additional information to help explain how we should handle permitting and planning for the drainage area with exposed industrial activities – specifically, how we need to address stormwater discharge and the identification of the area's point source location(s).

Regards,

Paul G. Richard, P.E.
